

Theftbuster Plus

Did you know in South Africa a vehicle is stolen approximately every 4 minutes and that smash & grab incidents are increasing year on year?more importantly, have you asked yourself what would happen if the next vehicle targeted was yours?

If you were the victim of a Hi-Jacking, Smash & Grab or your vehicle was simply stolen, have you considered the impact it would have on both you, your finances or anyone else involved in the incident? Maybe you think everything is covered by your motor insurance policy? Well firstly there's the expense of an Insurance excess which is a bitter financial pill to swallow after a traumatic event. Then there's the added costs of replacing personal items, hiring a car, replacing keys & gate remotes as well as other expenses which most people don't consider until it's too late. Now, with an affordable once off payment, you can relax in the knowledge that anyone driving your vehicle is covered against hi-jacking, smash & grab or vehicle theft. Theftbuster Plus helps get you & your loved ones back on your feet by taking care of those annoying expenses when things go wrong.
