

## Keyguard

Have you ever had that sinking feeling when you can't find your keys?

In today's world of modern cars, vehicle keys are a lot more expensive than you might think and losing them can end up costing thousands of rands. Did you know that if you lost your vehicle key and don't have a spare, it could easily cost over R20 000 to replace the vehicle lock set?

### HOW IT WORKS

Keyguard is an innovative new product from Bidvest Insurance that ensures you will still be able to get around even when you can't access your car. Keyguard will pay for towing to get your car to a repairer as well as replace your vehicle key and remotes to get you back on track. But that's not all, Keyguard will pay for all replacement keys and remotes for your home or if they were on the same key ring as your vehicle key! So if you're looking for a full solution to losing your car keys, Keyguard is here to help.
