

My Warranty

There's nothing more exciting than driving your newly purchased car off the show room floor. If only it could always be that perfect, but unfortunately breakdowns do happen and often when they're least convenient for you or your budget.

Vehicles have become more advanced with every passing year, containing more and more complicated systems and parts. Increasingly, broken parts are rarely repaired but rather replaced, increasing the cost to repair.

Luckily you can protect yourself from budget busting repair bills with My Warranty. Our range of warranty products are created to cover vehicles of various ages and kilometres with multiple cover terms available. All the warranty options also offer 24 hour Roadside and Medical Assistance for the duration of the cover.

Consult the table for more information on the warranty that is best for you and your vehicle. We look forward to welcoming you to the My Warranty family.
